

PREPARING YOUR ORDER

MEASURING PUPILLARY DISTANCE (PD) FOR ALL LENS TYPES

PD is necessary to complete your order.

PD can be obtained from your prescription or by speaking with an Eye Care Professional

MEASURING SEG HEIGHT FOR PROGRESSIVE BIFOCAL LENSES

Measure from the inside bottom of the frame to the center of the pupil.

STANDARD SEG HEIGHT IS USED FOR FLAT-TOP BIFOCALS

All flat-top bifocals will be placed 4mm below the center of the lens. Only Pupillary Distance is needed.
